

Teacher Guide

How to use the app and the PDFs in your lessons

For teachers

From Language to Culture is a library of story books in English and Arabic at three levels: A2, B1 and B2. Every book works in the app and as PDFs. This guide shows how to use both with a class. The full lesson notes for each book are in its Teacher's Book.

Getting started

- 1 Open the app link in a browser on a computer, a tablet or a phone.
- 2 Type the access code you received.
- 3 Choose Teacher. You can change this later on the home page.
- 4 Choose English or Arabic with the language button at the top.
- 5 No account is needed. Progress is saved on the device you use.

Choosing a book

- 1 On the home page, choose a story and then a level: A2, B1 or B2.
- 2 Every story has the same chapters at each level, so a mixed class can read the same story at different levels.
- 3 The Teacher's Book button on the book card opens the full teaching notes for that level.
- 4 The Check a result code card on the home page is only for teachers.

A chapter in the app

- 1 Before you read: students look, guess or find the answer fast.
- 2 Listen: Every chapter has a recording. Play it once while students follow the text.
- 3 Read: Underlined words show a short meaning in both languages.
- 4 Quick Challenge, Language Focus and I can close the chapter.
- 5 My words: students save new words and review them later.

Teacher tools in the chapter

- 1 The Lesson card under the chapter title puts the lesson on one screen: aims, timed steps, a group task and an exit ticket.
- 2 The Teacher's Book in the menu has the full plan, answers and assessment ideas for every chapter.
- 3 Discussion and Language Review questions have example answers. Show them after students try.

Teaching on the board

- 1 Open Story settings and turn on Class mode.
- 2 The text becomes larger. Answers and example answers stay hidden until you choose Show the answer or Show example.
- 3 Group tasks open for the whole class. The icons show if a task is for one student, a pair or a group.
- 4 On the maps, Class mode hides the places so you can show them one by one.

The end of the book

- 1 Every book ends with Knowledge Check, Master Glossary, Places & People, Vocabulary Challenge, Language Review and Final Challenge.
- 2 Students then see a result card with a short code.
- 3 Type the code in Check a result code on the home page to see the student's results. Nothing is sent over the internet.

The PDFs

- 1** Each book has three PDFs: The story book, the Teacher's Book and the Self-Study Guide.
- 2** Story book: The chapters and activities for reading on paper. Its QR codes open the same page in the app.
- 3** Teacher's Book: lesson plans, answers and assessment for every chapter.
- 4** Self-Study Guide: A study plan students can follow at home.
- 5** Open the book menu. The PDFs are under Printable PDFs.
- 6** A PDF opens in the browser. From there you can print it or save it.

Good to know

- 1** How to use this book in the menu explains every icon in one page.
- 2** Save this book offline in the menu keeps a book ready for a class without internet.
- 3** Install app on the home page puts the library on the device like an app.
